The Right Plan for You!

Champion Ally

This plan is a great choice for Medicare beneficiaries that don't qualify for a Chronic Condition Special Needs plan (C-SNP). This plan reduces the cost of prescription drugs while adding additional services and benefits.

Scope of Sales Appointment Confirmation Form

The Centers for Medicare and Medicaid Services requires licensed sales agents to document the scope of a marketing appointment prior to any individual sales meeting to ensure understanding of what will be discussed between the agent and the Medicare beneficiary (or their authorized representative). All information provided on this form is confidential and should be completed by each person with Medicare or his/her authorized representative.

Please initial below beside the type of product you want the agent to discuss.

Medicare Advantage Plans (HMO, HMO-POS, HMO C-SNP):

These Medicare Advantage Plans provide all Medicare Part A and Part B benefits, and all include Medicare Part D prescription drug coverage (MAPD). Some plans are designed for individuals with specific needs, such as those with chronic conditions (Chronic Condition Special Needs Plans, or C-SNPs).

| Medicare Advantage HMO (Health Maintenance Organization): You must use doctors, hospitals, and other providers that are in the plan's network, except in emergencies. You must choose a primary care doctor and you may be required to obtain referrals to see specialists. |
|---|
| Medicare Advantage POS (Point of Service) Plans (HMO-POS): These plans combine features of HMO plans with some out-of-network coverage. You select a primary care physician within the network and can see out-of-network providers for specific services and coverages. You may have different cost shares when seeing out-of-network providers. Some C-SNPs include a POS option allowing some access to out-of-network providers. This option is only available for the Champion HMO-POS Plans associated with its CKD/ESRD C-SNPs. |
| Chronic Condition Special Needs Plans (HMO C-SNP): These plans are designed for people with specific chronic conditions, such as Chronic Kidney Disease (CKD) including End Stage Renal Disease (ESRD), diabetes, or heart disease, Chronic Heart Failure (CHF), Coronary Artery Disease (CAD), or cardiac arrhythmias, or behavioral health conditions like Schizophrenia, Schizoaffective disorder, Bipolar disorder, Major depressive disorder, or recurrent Paranoid and other psychotic disorders. They tailor benefits, provider choices, and drug formularies to best meet the specific needs of the group they serve. Some C-SNPs include a POS option allowing some access to out-of-network providers. You may have different cost shares when seeing out-of-network providers. |
